**SUMMARY OVERVIEW OF THE MANAGED PLUS FUND PORTFOLIO**

Meticulous, concentrated share selection enables the Rezco Managed Plus Fund to be less correlated to the overall market and enables the fund to generate superior performance for investors. Our stock selection strategy focuses on international and domestic companies with strong earnings growth records, sustainable revenue streams and relatively low borrowings. By identifying companies which combine these features, Rezco is able to undertake in-depth research required to select new shares for the portfolio which can achieve a secure balance between risk and growth. The Fund’s primary objective is to create long term wealth for investors, while at the same time reducing the amount of risk. This is to be achieved within the constraints governing retirement funds. The Fund’s benchmark is the average of the ASISA SA Multi Asset High Equity category. The Fund aims to achieve returns well in excess of inflation measured over three to five year periods (CPI + 7%). However, this is not a guarantee. The Rezco Managed Plus Fund is actively managed to comply with the investment limits governing retirement funds, as it complies with Regulation 28 of the Pension Funds Act. The Fund is therefore suitable to form part of an investment portfolio for investors in retirement annuities, pension funds, preservation funds and provident funds. The Fund invests in a combination of shares, bonds and cash. The share weighting in the portfolio may not exceed 75% of the Fund’s portfolio, while exposure to foreign assets (excluding Africa) is limited to 25%.

**THRESHOLD**

The threshold investment amount for entry is R100 000.00 (one hundred thousand rands).

**FOREIGN ACCOUNT TAX COMPLIANCE ACT (FATCA) & COMMON REPORTING STANDARDS**

The Intergovernmental Agreement (“IGA”) entered into between South Africa and the United States of America (US) was designed to improve international tax compliance and to implement the FATCA. In terms of FATCA, RCI is obligated

to collect relevant information from each client to identify US taxpayers, or persons who might be regarded as US persons for tax purposes, and to report them to the South African Revenue Service (SARS).

Furthermore, the Common Reporting Standard (CRS) developed and issued by the Organisation for Economic Cooperation and Development calls on member jurisdictions to obtain information from their financial institutions regarding the tax status of clients and automatically exchange that information with other jurisdictions on an annual basis. South Africa is a member state of the OECD and has implemented the CRS. RCI is therefore obliged to ascertain the tax status of every investor.

Investors are requested to provide us with the details of their tax status in this form. Please see the **Annexure B** for a FATCA and CRS self-certification by the Entity and **Annexure C** for a FATCA and CRS self-certification by a Controlling Person (if applicable). Please use the **GLOSSARY** at the end of the form to assist with the appropriate classification.

**“Control”**

“Control” over an Entity is generally exercised by the natural person(s) who ultimately has a controlling ownership interest (typically on the basis of a certain percentage (e.g. 25%)) in the Entity. Where no natural person(s) exercises control through ownership interests, the Controlling Person(s) of the Entity will be the natural person(s) who exercises control of the Entity through other means. Where no natural person(s) is/are identified as exercising control of the Entity through ownership interests, then under the CRS the Reportable Person is deemed to be the natural person who hold the position of senior managing official.

**“Controlling Person(s)”**

“Controlling Persons” are the natural person(s) who exercise control over an entity. Where that entity is treated as a Passive Non-Financial Entity (“Passive NFE”) then a Financial Institution is required to determine whether or not these Controlling Persons are Reportable Persons. This definition corresponds to the term “beneficial owner” described in Recommendation 10 of the Financial Action Task Force Recommendations (as adopted in February 2012).

In the case of a trust, the Controlling Person(s) are the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, or any other natural person(s) exercising ultimate effective control over the trust (including through a chain of control or ownership). Under the CRS the settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) of beneficiaries, are always treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the activities of the trust.

Where the settlor(s) of a trust is an Entity then the CRS requires Financial Institutions to also identify the Controlling Persons of the settlor(s) and when required report them as Controlling Persons of the trust.

In the case of a legal arrangement other than a trust, “Controlling Person(s) means persons in equivalent or similar positions.

**“Financial Institution”**

The term “Financial Institution” means a “Custodial Institution”, a “Depository Institution”, an “Investment Entity”, or a “Specified Insurance Company”. Please see the relevant domestic guidance and the CRS for further classification definitions that apply to Financial Institutions.

**“Investment Entity”**

The term “Investment Entity” includes two types of Entities:

- (i) an Entity that primarily conducts as a business one or more of the following activities or operations for or on behalf of a customer:
- Trading in money market instruments (cheques, bills, certificates of deposit, derivatives, etc.); foreign exchange; exchange, interest rate and index instruments; transferable securities; or commodity futures trading;
  - Individual and collective portfolio management; or
  - Otherwise investing, administering, or managing Financial Assets or money on behalf of other persons.

Such activities or operations do not include rendering non-binding investment advice to a customer.

(ii) The second type of “Investment Entity” (“Investment Entity managed by another Financial Institution” – as defined under §A(6)(b) of Section VIII of the CRS) is any Entity the gross income of which is primarily attributable to investing, reinvesting, or trading in Financial Assets where the Entity is managed by another Entity that is a Depository Institution, a Custodial Institution, a Specified Insurance Company, or the first type of Investment Entity.

**“Investment Entity managed by another Financial Institution”**

An Entity is “managed by” another Entity if the managing Entity performs, either directly or through another service provider on behalf of the managed Entity, any of the activities or operations described in clause (i) above in the definition of ‘Investment Entity’. An Entity only manages another Entity if it has discretionary authority to manage the other Entity’s assets (either in whole or part).

**“NFE”**

An “NFE” is any Entity that is not a Financial Institution.

**“Non-Participating Jurisdiction”**

A “Non-Participating Jurisdiction” means a jurisdiction with which no agreement is in place pursuant to which it will provide the information set out in the CRS.

**“Participating Jurisdiction Financial Institution”**

The term “Participating Jurisdiction Financial Institution” means (i) any Financial Institution that is tax resident in a Participating Jurisdiction, but excludes any branch of that Financial Institution that is located outside of that jurisdiction, and (ii) any branch of a Financial Institution that is not tax resident in a Participating Jurisdiction, if that branch is located in such Participating Jurisdiction.

**“Passive NFE”**

Under the CRS a “Passive NFE” means any: (i) NFE that is not an Active NFE; and (ii) Investment Entity as defined under §A(6)(b) of Section VIII of the CRS resident in a Non-Participating Jurisdiction.

**“Related Entity”**

An Entity is a “Related Entity” of another Entity if either Entity controls the other Entity, or the two Entities are under common control. For this purpose, control includes direct or indirect ownership of more than 50% of the vote and value in an Entity.

**“Resident for tax purposes”**

Generally, an Entity will be resident for tax purposes in a jurisdiction if, under the laws of that jurisdiction (including tax conventions), it pays or should be paying tax therein by reason of his domicile, residence, place of management or incorporation, or any other criterion of a similar nature, and not only from sources in that jurisdiction. Dual resident Entities may rely on the tiebreaker rules contained in tax conventions (if applicable) to solve cases of double residence for determining their residence for tax purposes. An Entity such as a partnership, limited liability partnership or similar legal arrangement that has no residence for tax purposes shall be treated as resident in the jurisdiction in which its place of effective management is situated. A trust is treated as resident where one or more of its trustees is resident.
