### **IMPORTANT INFORMATION**

- This Fund Annexure must be read together with the Application Form, the terms and conditions of which apply in respect of the purchase of a participatory interest in the relevant Fund.
- Processing the purchase of participatory interests in the relevant Fund is contingent on the investor's FICA documents and information being complete and up to date.
- Redemptions will be paid into the bank account provided on the Application Form. If there has been a change of banking details in respect of that account, a Change of Banking Details form must be completed and submitted.

### **SUMMARY OF PORTFOLIO**

Through a conservative approach the Fund seeks to provide capital stability by investing in a broad range of securities including a mix of equities, bonds, listed gilts, interest bearing securities, money market instruments and property markets. The total equity exposure (including international equity) will be between 0% and 40%. Meticulous, concentrated share selection enables the Rezco Stable Fund to be less correlated to the overall market and enables the Fund to generate superior performance for investors. The Fund aims to achieve returns well in excess of inflation measured over three to five year periods (CPI + 3%). Please consult the Minimum Disclosure Document for more information.
