CUMULATIVE VALUE OF R100'000 INVESTED AT INCEPTION

\* NAV-NAV, net of retail class A fees, and with income reinvested on the reinvestment date. The investment performance is for illustrative purposes only

INVESTMENT APPROACH

Our investment style is that of Growth at the Right Price (GARP). Our stock selection strategy focuses on companies with strong earnings growth, sustainable revenue streams and low borrowings, at reasonable price levels. By identifying companies that combine these features, we are able to achieve a secure balance between risk and growth. This meticulous, concentrated share selection process enables the Fund to be less correlated to the overall market.

THE FUND IS SUITABLE FOR INVESTORS WHO

- want to preserve the purchasing power of their capital over the long term
- look to achieve long-term capital growth
- seek exposure to the earnings potential of equities, while taking advantage of the Fund's multi-asset mandate

FUND DESCRIPTION & OBJECTIVE

The Fund's primary objective is to create long-term wealth for investors, while at the same time to reduce the amount of risk. This is to be achieved within the constraints governing portfolios that can be included in retirement vehicles. The equity weighting in the Fund may not exceed 75%, while exposure to foreign assets is limited to 45%. The Fund invests in a combination of investment securities, such as: shares, listed property, commodities, bonds and money market instruments.

The Fund's benchmark is the weighted average of the ASISA Multi-Asset High Equity category.

The Fund aims to achieve returns well in excess of inflation, measured over 3 - 5 year periods (CPI + 7%). The Manager does not make any guarantees concerning the capital or return of the Fund.

## IMPORTANT INFORMATION

### REZCO COLLECTIVE INVESTMENTS | MANAGEMENT COMPANY

Rezco Collective Investments Ltd (the "Management Company") is an authorised management company in terms of the Collective Investment Schemes Control Act. The trustee/custodian of the Fund is RMB Custody and Trustee Services | First Floor, 3 First Place, Bank City, Cnr Simmonds and Jeppe Streets, Johannesburg, 2001 | 087 736 1732 | [www.rmb.co.za](http://www.rmb.co.za). Rezco is a member of the Association of Savings and Investments South Africa (ASISA). The Management Company has delegated the management of the investments of the Fund to Rezco Asset Management (Pty) Ltd, (the "Investment Manager"). The Investment Manager is duly authorised to act in this capacity and is a licensed Financial Services Provider with FSP number 702. Returns data are sourced from Morningstar.

### GENERAL DISCLAIMER

Unit trusts are medium to long term investments. The value of units may go up as well as down, and past performance is not necessarily a guide to the future. General information about the Manager and its products and services is provided by the Manager. Actual annual figures are available to the investor on request. No guarantees about the suitability or potential value of any information or particular investment source are given by the Manager. The information in this document does not constitute any form of advice. Nothing contained in the content of our fact sheet constitutes a solicitation, recommendation, endorsement or offer by Rezco, but shall merely be deemed to be an invitation to do business. A registered financial advisor should be consulted prior to taking any investment decision. In order to obtain additional information, you may visit our website at [www.rezco.co.za](http://www.rezco.co.za) or contact us on 086 173 9468.

### UNIT PRICES & RELATED INFORMATION

Unit trusts are traded at ruling prices and may engage in borrowing. Unit trusts are not normally taxed as traders but this cannot be guaranteed. Performance is calculated for the Fund; however, individual investor performance may differ as a result of initial fees (which we do not and have never charged), the actual investment date, the date of reinvestment and dividend withholdings tax. The Fund is valued each day at 15h00 and the cut-off time for submission of transactions is at 14h00. Prices are calculated and published on each business day in the prescribed manner, as well as on our website. Prices will also be made available on request.

### FUND SPECIFIC RISKS

Unit trusts are not guaranteed investments. There are risks that are attached to investing, especially if an investor does not take into consideration the recommended time period to remain invested.

Particular risks that an investor may be exposed to as a result of the foreign component of the Fund include: liquidity, macro-economic, political, foreign exchange, tax, settlement and potential limitations on availability of market information.

### FEES

A schedule of fees, charges and maximum commissions is available on request from the Manager.

Rezco has never charged initial fees.

Introduced to enhance transparency for investors, the Total Expense Ratio (TER) is a standardised method of displaying charges against a portfolio. TER is calculated by taking into account particular expenses incurred by a fund as a percentage of the fund's net asset value (NAV). These expenses include the management fee that a manager charges, performance fees (if any) and other costs (e.g. fund's bank charges, audit fees, custodian and trustee fees). A higher TER does not necessarily imply a poor return, nor does a low TER imply a high return. The TER is an annualised figure calculated over a 3-year period.

The Total Investor Charge (TIC) is the sum of the TER and transaction costs. Transaction costs (TCs) are the costs incurred in trading (buying or selling) the underlying assets of a fund. TCs are calculated in respect of the 3 years ended 31 May 2025.

Therefore:

TER = Management Fee + Performance Fee (if any) + Other Costs (incl. VAT)

TIC = TER + Transaction Costs (incl. VAT)

Performance fee of 0.125% for every 1% out-performance against the Weighted Average of the ASISA MA High Equity category as calculated by Plexus up to a maximum of 1.25% (ex VAT), calculated on a rolling 1 year basis. Performance fee is zero with negative returns.

### GLOSSARY

- Annualised performance: the average return per year over the period
- Maximum drawdown: the largest peak to trough decline during a specific period.
- Sortino ratio: measures the risk-adjusted return by taking the excess return over the risk-free rate divided by the downside deviation. It measures the "bad" volatility. A large Sortino ratio indicates there is a low probability of a large loss.
- Volatility: the amount by which the performance fluctuates over a given period.
- Risk profile: a measure of the volatility of the fund. A "low" rating indicates less volatility (lower end of the risk scale) with potentially lower returns (rewards). A "high" rating indicates more volatility (the upper end of the risk scale) with potentially higher returns (rewards).
